

# Construction standards for your home

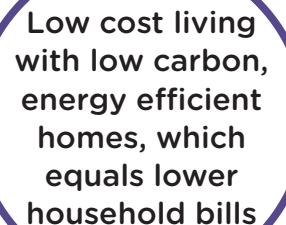

We are committed to providing decent space standards, low cost living through energy efficiency as well as mitigating environmental impact.

Cornwall Community Land Trust schemes are tailored to the needs of local communities forever.

Include green technologies, electric vehicle charge points, fibre optic to premises

Low cost living with low carbon, energy efficient homes, which equals lower household bills

Additional community benefits include, allotments, orchards & green public spaces

Well designed homes with larger space standards, low density, flexible design & parking spaces

Working with nature, conserving natural wildlife, landscape and historic features
